## Collapse of Local Boat in Poughkeepsie Regatta Will Cause Shake-Up; Glendon to Build Middies' New Combination Around Frawley, Star 1921 Stroke

There is at present every indication that the varsity crew of the United States Naval Academy, regarded by many experts as the championship eight of 1921, will rise to greater heights in 1922 than it did last year.

Unless Cornell, Harvard, Princeton or Yale should develop a combination of extraordinary and unexpected strength, which is not altogether improbable, there is a very great likelihood of the midshipmen ringing up an unbroken string of victories next season. Their prospects certainly seem brighter, from a midwinter viewpoint, than do those of any of the other varsity eights.

It was a super-crew that Richard Glendon turned loose on the rowing world last year, a giant eight whose greatest difficulty was controlling its own amazing strength. And that eight has suffered the loss of only one man through the graduation of 1921, which means that the boat remains practically intact. The missing member of the combination that rowed away from Cornell, Pennsylvania, California, Syracuse and Columbia in the intercollegiate championship at Poughkeepsie on June 22 last is Moore, who rowed at No. 4.

The last news from Annapolis indicates that an unusually large and husky squad will turn out this week to begin work on the indoor machines, and that Glendon is not expected to have any great difficulty in selecting an oarsman who can replace Moore without detracting from the power of the shell. Fifty first-year men are already at work on the machines under the supervision of "Young Dick" Glendon, and they are said to be an unusually promising lot. "Old Dick" Glendon, the head coach and maritime master of the academy, is expected to arrive next week, and will immediately take active charge of the varsity material.

Has Large Squad at Disposal  
Glendon's preparatory work is easy compared with that which faces the other varsity coaches. He has seven-eighths of a seasoned and experienced championship crew at his disposal before he starts, and the rest should be simple.

The veterans of the super-crew of 1921 who are still available are Gallagher, bow; Bolles, No. 2; King, No. 3; Sanborn, No. 4; Johnston, No. 5; Lee, No. 6; Frawley, stroke; Clark, coxswain. Of these, Gallagher, King, Sanborn, Johnston and Clark were members of the famous Navy crew that went to Antwerp in 1920 and won the Olympic championship, defeating the best crews of the world. Bolles, Lee and Frawley, regulars last season, were substitutes in the Olympic combination.

Clyde King, who comes from Iowa, stroked the Olympic crew and rowed No. 3 in last year's boat. He played tackle on the Navy football team that defeated the Army at the Polo Grounds on November 25, and is captain of this year's crew.

From the foregoing it is plain that in the important matter of experienced material the Navy will enter the 1922 campaign with an overwhelming advantage. All of these battle-scarred veterans, with the exception of Bolles, will graduate next June, which will leave Dick Glendon rather flat for 1922, but for the coming campaign he can be said to be "riding pretty."

Probably the greatest point in Glendon's favor at present is the fact that he will have the giant E. B. Frawley, stroke of last year's crew, about whom to build up his 1922 combination. There is small chance that Frawley will be displaced at stroke, as his work last season was absolutely satisfactory, and showed a marked improvement between the date of the Navy's defeat at the hands of Princeton on Lake Carnegie and the intercollegiate regatta at Poughkeepsie. He should be a finished oarsman this year.

Youngest Man on Crew  
Frawley is twenty-two years old, weighs 182 pounds and stands a trifle over six feet in height. He was the youngest man in last year's boat.

An effort has been made to widen the size of the varsity crew, and there are indications that this move will meet with success. Whether it does or does not, the midshipmen are expected to take part in the Henley, where it will again be given an opportunity of meeting the Tigers.

It is considerable doubt just now as to whether the boys from the Severn will be given permission to compete at Poughkeepsie in the intercollegiate regatta, but the move was overcome last year and it is generally hoped that the authorities at Annapolis will stretch a point again this season and allow Glendon's men to take part.

The opposition to the Navy competing at Poughkeepsie is based on the fact that the regatta, coming late in the season, will begin this week to miss a part of the annual regatta. Last year the oarsmen were compelled to join their ships at various European ports. The showing the eight makes in its regular campaign probably will have a great deal to do with the action of the naval authorities in connection with the Poughkeepsie regatta.

The rowing squads of practically all the universities will begin this week the long stage of preparation for the coming season. Up at Columbia Jim Rice will line up his aquatic boys tomorrow, with several members of last year's "mystery crew" trying for places in the 1922 boat.

Broddi Alone Sur of Job  
Of these men Franklin Broddi, the husky and hard working stroke, is the one man who is sure of his job. The miserable season of 1921, in which the combination at Poughkeepsie, after a brilliant season of spectacular victories, leads one to believe that there will be radical changes in Columbia's boating this year.

The college's new crew at Poughkeepsie is now generally attributed to a fatal weakness in the middle of the boat, and one of Jim Rice's aims this year is to remedy this. The remedy may mean a number of new faces in the varsity line-up.

Princeton, although she lost Heinie Leh, her wonderful stroke, and other stars of her championship "B" crew, is probably in the most encouraging way, as regards 1922 material, of any of the colleges, barring Annapolis. Her head coach at Princeton, had so much available material last year that he was able to organize and race two varsity

## Weight Throwing Added to College Indoor Athletics

At a meeting of the I. C. A. A. A. executive and advisory committee held yesterday afternoon at the Columbia Club the events to be decided at the indoor intercollegiate track and field championships were announced. The title meet, which will be the first of its kind held in several years, will take place at the 22d Regiment Armory March 11.

It also was decided to add one field event, a thirty-five-pound weight throwing contest for distance, this being a departure from the rule in previous meets which prohibited weight throwing events at indoor meets. The rest of the card will be as follows: 70-yard dash, 60-yard high hurdle, one and two-mile run, high jump, broad jump, 16-pound shot-put, one-mile medley relay for freshmen and one and two-mile senior relays.

The freshman relay is an innovation which the committee believes will attract large entry. Colleges will be allowed to enter only one team in each of the relay events, and the system of scoring will be the same as is used by the association for the outdoor meets, namely, 5, 4, 3, 2 and 1.

It is planned to lay a board track over the floor at the armory, using banked turns, thus allowing the athletes to don their spiked shoes. Undoubtedly this will make for faster time in all the track events.

## Columbia Five Looks Strong, Despite Poor Showing So Far

The showing of the Columbia University basketball team to date has been very discouraging to its followers, but Coach Deering is not altogether dependent over the Blue and White chances in the coming intercollegiate league contests. Columbia has a record of two victories and four defeats.

In every one of its defeats, however, the Blue and White played sensational basketball, which should have been good enough to win. First the Morning inside five lost to West Point by the close score of 20 to 17. The only reason for the defeat was Columbia's inability to score from the foul line.

Next came the contest with Rutgers, which was lost by four points because of poor foul shooting. The third defeat came at the hands of New York University, considered one of the best college basketball teams in the country. Columbia extended N. Y. U. to the limit, but lost out only after an extra period. The score was 28 to 26.

Columbia then defeated Rochester, but succumbed to Syracuse in another close contest. The Blue and White was in front when the Orange came through with nine points in the last three minutes of the game.

Have Had Hard Schedule  
The coaches' lack of success is sufficient cause for encouragement, and Coach Deering is confidently awaiting the opening league game with Dartmouth at Hanover tomorrow. The quiet has a big advantage over the majority of the other league teams because its schedule has called for some of the hardest games in the first few weeks of the season.

The opposition among the league fives cannot be much stronger than that already seen. New York University's strength is well known, and Syracuse, another of Columbia's opponents, considered itself of sufficient power to request admittance into the league this year.

Columbia's weak point is foul shooting, but both Captain Watson and Pulley have been working diligently to correct themselves in this department. The excellent work of Jimmie Springhorn and Mullen are a pair of fast forwards who have been playing regularly. Watson is at center and Reilly and Pulley take care of the guard positions.

Pittsburgh's Fine Game  
Penn has been conducting a campaign against the smaller colleges around Philadelphia with great success, but its first hard battle is expected next Wednesday when it will meet the University of Pittsburgh five. Pittsburgh's everybody about ten days ago by defeating Dartmouth 45 to 29.

# Erasmus Swim Team Triumphs Over Commerce in Dual Meet

## Brooklyn Boys, Leaders in City Title Series, Defeat Manhattan Rivals by 29 to 24 Score in Columbia University Pool and Take Lead in Tourney

The swimmers of Erasmus Hall defeated the High School of Commerce by 29 to 24 in the twelfth series of dual meets for the public school championship of greater New York at Columbia University yesterday afternoon, and thereby assumed the lead in the title tournament.

The Brooklyn boys actually displayed greater superiority than the score indicated. The relay race, won by Erasmus, undoubtedly would have gone to Erasmus had not Collins, third in the 200-yard relay, been disqualified for touching the rope marking the end of the course. This enabled Commerce to gain half a length of the pool and, although Lord, the Erasmus anchor man, picked up the relay race, he could not quite catch his rival. But for this was quite of Collins the tally would have been 27 to 16.

Two of the season's records were broken in the 100-yard freestyle. Collins, of Erasmus, swam 1:14.5 in 22 seconds, or four-fifths of a second the best previous time and the fastest former mark for the 100-yard relay race. Collins swam 1:14.5 in 22 seconds, or four-fifths of a second the best previous time and the fastest former mark for the 100-yard relay race.

Erasmus Childs Also Wins  
Erasmus Childs won from Manual Training by 35 to 18 and established a new record for the 100-yard relay race. He swam 1:14.5 in 22 seconds, or four-fifths of a second the best previous time and the fastest former mark for the 100-yard relay race.

The teams of Far Rockaway and Boys' School College also participated in the dual meet. Far Rockaway defeated Boys' School College by 29 to 24 in the twelfth series of dual meets for the public school championship of greater New York at Columbia University yesterday afternoon, and thereby assumed the lead in the title tournament.

LANING, Mich., Jan. 7.—Boxing in Michigan was given a new lease of life by Governor Groesbeck today, with the stipulation, however, that it be conducted in strict conformity with the state laws regulating the sport. This means, the Governor explained in a conference with Thomas W. Bigler, boxing commissioner, that no more championship prizefights or big open-air exhibitions, such as were held in Benton Harbor last year, will be sanctioned.

The Governor made it clear that the state law permits "boxing matches," as distinguished from "prizefights." Athletic clubs that can qualify their bouts for the state law will be permitted to show under the strict supervision of the State Boxing Commission.

Win for Washington High  
George Washington High School came from behind and defeated the Morris High School basketball team on the latter's court yesterday afternoon by a score of 22 to 16. Morris was in front until toward the end of the second half when great shooting by Severance and McConville enabled George Washington to take the lead. Morris led at the end of the first half, 11 to 5.
